

M600 AA SCOUT LIGHT®

HIGH-OUTPUT LED WEAPONLIGHT

Model Number: M600AA-DSS

The M600 AA is a versatile new member of SureFire's best-in-class Scout Light family. It features a recoil-proof, solid-state LED that cranks out 200 lumens of blinding white light focused by a patented TIR lens into a useful beam with plenty of reach and ample surround light for maintaining good situational awareness. It's ideal for close- to longer-range applications. Adding to the M600 AA's versatility is the fact that it can be powered by either AA lithium batteries—for maximum performance—or by AA alkalines, both

of which are readily available in even remote parts of the world. This low-profile light securely mounts to MIL-STD-1913 rails via an integral thumbscrew clamp and, thanks to its lightweight aerospace aluminum construction, it won't bog down your weapon or sacrifice its maneuverability. The combat-ready M600 AA Scout Light is activated by either clicking its included pushbutton tailcap switch or by pressing its optional pressure-pad tape switch, so you can set it up to provide you with a maximum tactical advantage.

FEATURES & BENEFITS

- Virtually indestructible ultra-high-output LED generates 200 lumens of blinding light; produces tactical-level light for 3.75 hours on a set of batteries
- TIR lens shapes versatile beam with enough reach and surround light for close- to longer-range operations
- Hard-anodized aluminum body, tempered window & O-ring seals make light rugged, durable, and combat ready
- Models feature tailcap (included) and pressure-pad tape switch (optional)
- Thumbscrew mount attaches quickly & securely to MIL-STD-1913 rails
- Powered by two AA lithium or alkaline batteries
- Backed by SureFire's No-Hassle Guarantee

SPECIFICATIONS

LED Color Body Color

WHITE-LIGHT MAX OUTPUT*:	200 lumens
WHITE-LIGHT RUNTIME*:	3.75 hours
BEZEL DIAMETER:	1.125 inches (2.9 cm)
LENGTH:	6.875 inches (17.4 cm)
WEIGHT:	5.2 oz (148 g) with tailcap click switch
SWITCHING:	Tailcap click switch, pressure-pad tape switch
MATERIAL:	Aerospace aluminum; coated, tempered window
FINISH:	Mil-Spec Type III hard anodizing
COLOR:	Black
BATTERY:	Two AA lithium (included) or AA alkaline

*With AA lithium batteries; output and runtime is less with AA alkalines.
